

Liberal Arts Core Requirements

Liberal Arts Core

CORE 100: Self (Year 1): In the first-semester CORE experience, students develop a foundation for critical and humane inquiry, consider the application of skills in academic and professional settings, and learn how to take responsibility for their learning. Each seminar focuses on one topic, idea, problem, or concept to introduce a liberal arts education. Students explore such questions as: Who am I, and what is my responsibility to myself? Where do I find reliable information as a student and citizen? What do I need to be successful in college and beyond? As the first experience, students complete a collaborative project to be presented at the Library Showcase event at the end of each Fall semester. Three semester hours.

CORE 200: Society (Year 2): In the middle CORE experience, students engage with questions of difference, diversity, and their responsibilities to and within local and national communities. Through the critical exploration of cultural and material structures of power, ethical considerations, and the related concepts of egalitarianism, multiculturalism, and sustainability, students consider their role in caring for their immediate human and natural environments by addressing such questions as: What is my responsibility to those around me, and how do I seek out ways to create a more equitable and sustainable society? How do I engage with diverse perspectives, distinguish between publication types and their usage, and understand my own relationship to power? What are my own success and failures to this point, and how do I learn from them to succeed in my final two years of college? Sophomore status required. Three semester hours.

CORE 300: World (Year 3): In the final CORE experience, students contemplate their responsibility to themselves and others as part of the global community. Through in-depth study of international and transnational institutions, policies, cultural practices, and ethical considerations, students study contemporary and historical moments of global interconnectedness from interdisciplinary perspectives. Through engagement with, and in some cases the practice of, global citizenship, students reconsider their role in caring for others and the natural environment, addressing such questions as: What is my responsibility to those whom I may never meet? What are scholarly sources of information about the world and what issues of information sharing do we face? How has my liberal arts education prepared me for my final year of college and beyond? Junior status required. Three semester hours.

Global Citizenship. Each student will engage in a Study Abroad experience or take a second CORE 300 course.

Care and Cultural Competency

Students choose from lists of appropriate classes, as applicable, with the goal of developing care for themselves and for others around them by focusing on cultural and global awareness.

Lifetime Wellness. The wellness requirement totals two semester hours. One hour is a Lifetime Wellness course designed to be taken during the student's first year. The course is designed to promote an understanding of wellness and related behavior that contributes to a healthy lifestyle. Students also complete two different half-hour activity courses. Accommodations will be made for students with documented disabilities.

Written Communication. Students meet this requirement by receiving a grade of C- or better in English 101. Unless exempted on the basis of high SAT or ACT verbal scores, or unless entering Emory & Henry with AP or transfer credit, all students are required to take English 100 and/or English 101 during the first year. Students enrolled in English 100 must earn at least a C- in English 100 in order to take English 101. Similarly, students who obtain lower than a C- in English 101 must retake it and obtain at least a C- to meet the college writing requirement. Students exempted from both English 100 and English 101 must complete an advanced writing course chosen from the following: English 200, 203, 230, 250, 251, 252, 255, 256, 321, 322, 323, or 326. Some departments may also require an advanced writing course as a graduation requirement.

Students who exhibit weaknesses in college-level writing skills in any course after the completion of English 101 may be required to complete English 199 in order to graduate. Any faculty member may make a formal referral to English 199. A student officially referred to English 199 must enroll in and pass the course in order to graduate.

Foreign Language. Students meet this requirement in any one of several ways. They may (a) complete two sequential foreign language courses at the 100 level (6 to 8 semester hours), or (b) demonstrate competency through the 102 level by appropriate performance on a foreign language proficiency exam and oral interview with Foreign Languages faculty, or (c) fulfill the requirement during a Study Abroad experience, or (d) substitute a native language other than English, or (e) complete two sequential American Sign Language (ASL) courses. Departments may require additional hours beyond the minimum.

Students with documented disabilities of a severe language-based nature may request pre-approved course substitutions to meet the Core Curriculum foreign language proficiency requirement. Course substitutions approved for this purpose will also serve to meet the foreign language requirements of a major for which no more than eight credit hours of any foreign language are required. Students must initiate such a request in time to receive a decision prior to the end of their sophomore year, or in the case of a transfer student, within the first semester at the college. The request for substitution must be approved prior to any coursework that will count as substitution. Attempting a foreign language will not preclude a student from successfully requesting a foreign language substitution. Students must be registered with Disability Support Services in the Powell Resource Center before initiating a substitution request. Procedures for registering with Disability Support Services and for requesting foreign language substitutions are available in the Powell Resource Center. Students interested in these procedures begin by making an appointment with the Director of Disability Support Services. Religion. Each student completes a religion course to explore the roots, teachings and contemporary understandings of the Christian faith or a variety of religious beliefs and practices and the importance of religion in the lives of people all over the world.

Religion. Each student completes a religion course (101, 111, 130, 131, 132, 200 or 213) to explore the roots, teaching and contemporary understandings of the Christian faith or a variety of religious beliefs and practices and the importance of religion in the lives of people all over the world.

Think, Understand & Create

Students choose from lists of appropriate classes, as applicable, to develop skills in analytical thinking, evaluation of information, methods of research, educational perspectives and avenues of communication from a wide range of disciplines.

Mathematics. The mathematics requirement enables students to develop skills that will assist them in college courses and in vocational preparation. This requirement is met by completion of mathematics courses specified in each departmental headnote for a major.

Natural Sciences with Laboratory. One class chosen from list of approved courses in the Natural Sciences.

Social Sciences. One class chosen from list of approved courses in the Social Sciences.

Humanities. One class chosen from list of approved courses in the Humanities.

Creative Arts. One class chosen from list of approved courses in the Creative Arts.

Capstone Experience

The fourth-year Capstone ties together the skills, methods, and knowledge learned through the three CORE experiences, electives, and classes in the major. It provides an opportunity for professional practice within a student's major field, and a chance for students to share their knowledge with the wider community. The nature of the Capstone experience varies by discipline and is defined by the student's home department. The Capstone provides a scholarly and/or professional experience in the major. As the second "bookend" experience, students create a final product and/or share their knowledge with the wider community. Such experiences could include:

Senior seminars, undergraduate research project, a final artistic creation/performance/show, among others TBD.

Internships, student-teaching, and civic engagement projects. Allow flexibility on what constitutes an internship with some common standards; some internships could be on campus (HHP interns with the athletic department, for instance) and some could be during the summer.

Capstones also engage students with ethical considerations and best practices for the profession. Ask students to reflect on (1) what they want to contribute to their field and the world, and (2) how their liberal arts education prepared them for success.

*Note: Lists of classes for CORE 100, CORE 200, CORE 300, Religion, Natural Sciences, Social Sciences, Humanities and Creative Arts requirements to be developed by work groups (CORE) and departments.

CORE 200 Society

- CORE 200 Society: AI, Robots, and Cyborgs
- CORE 200 Society: Art in Social Change
- CORE 200 Society: Frederick Douglass
- CORE 200 Society: Jazz Age
- CORE 200 Society: Women, Music, and Culture
- CVIN 210 Questions of Place and Diversity
- ENGL 232 Introduction to Short Fiction
- HHP 201 Women, Sport, and Culture
