

CHEM 112: General Chemistry II

Fundamental laws of kinetics, thermodynamics, electrochemistry, chemical equilibrium, acid base theory, descriptive chemistry of metals and nonmetals, and nuclear chemistry. This course satisfies the proficiency requirement for Critical Thinking in the disciplines.

Semester Hours: 4

Lecture Hours: 3

Prerequisites:

C- or better in 111 and 111L.

Co-Requisites:

CHEM 112L

Program: Chemistry
