

ESCI 400A: Field Study

A culminating earth science experience in which skills in field geology are developed and geological sites are investigated; travel required. Each section lasts one week and earns one semester hour of credit. Week 1 (part a) devoted to using tools of geology and the construction of a geologic map. Weeks 2-5 (parts b-e) involve close study of sites in Southwest Virginia and other regions. Depending on student needs, field trips in meteorology and astronomy may be substituted for some geology activities.

Credits: 1

Prerequisites:

111, 112, and permission of instructor.

Program: Geography & Earth & Environmental Sciences
