

## NURS 403: Evidence-Based Practice and Research in Nursing

A didactic and clinical course based in evidence-based practice designed for the application of professional nursing concepts into practice. Significant concepts include skills of leadership and management, self-directed learning, interdisciplinary collaboration and teamwork, time management, and quality improvement. A required project will be presented demonstrating evidence-based practice and scholarly inquiry. This course will be a hybrid course with online and face-to-face instruction. Three semester credit hours.

**Semester Hours:** 3

**Program:** Nursing
